

# PRODUCT DATA SHEET

Revision Date: 12/12

## Fatty Acid Methyl Esters

Fatty acid methyl esters is a light yellow transparent liquid. The fatty acid methyl esters is refined from natural vegetable oils. It can be used as raw materials of leather fat liquor, fatty alcohol and surfactant.

### FEATURES

- Light yellow transparent liquid
- Outstanding color
- Outstanding smell
- Low freezing

### APPLICATIONS

- Leather chemical
- Daily chemical industry
- Surfactant
- Pesticide adjuvants

PROPERTIES	SPECIFICATION	TYPICAL QUALITY
Appearance	Light yellow transparent liquid	PASS
Taste	Mild and special odor	PASS
Acidity	$\leq 5.16$ mgKOH/g	3.16 mgKOH/g
Saponification value	$\geq 170$ mg	186 mg
Water content	$\leq 0.1\%$	0.012%
Iodine value	$\leq 115$	99.2
C16-C18 content	$\geq 95\%$	96%
<b>HANDLING &amp; STORAGE</b>	In unopened, original containers, 24 months at 2 - 25°C, (see Expiry date on original container)	
<b>CN CODE</b>	3824909090	
<b>PACKAGING</b>	In bulk	
<b>HEALTH &amp; SAFETY</b>	Please refer to Material Safety Data Sheet
